

Folding bellows illumination

Feel-good atmosphere

Articulated buses shine in a new light with HÜBNER. Translucent fabrics, a wide variety of colors, and lighting elements integrated in our articulation systems create a feel-good atmosphere and increase riding comfort. In addition, innovative design elements enhance the quality of the passenger experience and increase passengers' sense of safety.

These new elements can be easily retrofitted in existing systems and are also simple to maintain. HÜBNER offers lighting solutions that are directly integrated in the folding bellows – in flexible configurations in accordance with customer requirements. For example, we can implement LED lighting elements either in the center frame or directly in the folding bellows. Contact us and we will be happy to find the right solution for you.

Our features:

- LED illumination in the inner bellows frame
- Increased passenger comfort
- Simple installation and removal
- Increased attractiveness with a range of customizable colors
