

Uwe Bittroff

Uwe Bittroff was born in Kassel, Germany, in 1966. He is married and has two children. Since fall 2022, he has been Managing Director of the HÜBNER Group, now together with Ingolf Cedra, Kai Mentel, Nora Oberländer and Claus Schäfer. Within the General Management, Uwe Bittroff is responsible for the Mobility Road business division.

Uwe Bittroff has been with HÜBNER since 1998. After traineeship as a Telecommunications Electronics Engineer at Siemens and studying Electrical Engineering at the University of Kassel (degree: Graduate Engineer), he joined HÜBNER in 1998 as a Development Engineer for electronic and hydraulic systems. In 2003, he took over as team leader for Project Sales and Head of Electronics & Hydraulics. From 2004, he was responsible for developing the concept for the separation of the organization into the former rail and bus divisions. In 2006, Uwe Bittroff assumed responsibility for Sales and Production in the Road division. From 2008, he headed the Road division, and from 2012 he also assumed global responsibility for the Bus division.

In parallel to his activities as General Manager at Group level, Uwe Bittroff is also responsible for the management of various HÜBNER affiliated companies, including HEMSCHEIDT Fahrwerktechnik.
