

Technological capabilities of the HÜBNER subsidiary to be expanded

## Heinz Bähr is new Managing Director of GERSYS

**Kassel, Germany (3 November 2020).** GERSYS has a new top manager: Heinz Bähr will be leading the rail technology manufacturer based in Wolfratshausen, Germany, starting 1 November 2020.

"We are very pleased that we have been able to recruit Heinz Bähr, a highly motivating and supportive leader for our Group company GERSYS," said General Manager Helge Förster, who is in charge of the HÜBNER's Mobility business segment. "With his extensive technical and sales experience in the international context he will fit perfectly with our company."

GERSYS is a leading supplier of instrumentation for the cockpit of railway locomotives and other special-purpose rail vehicles. The company's portfolio includes vehicle computers as well as display and driver assistance systems. GERSYS has been part of the HÜBNER Group since 2019.

Bähr worked previously at the Aircraft Philipp Group, an owner-managed, medium-sized company in the aviation sector, where he was in charge of business development. Prior to this he held various executive positions at the SIEMENS company.

"Heinz Bähr brings wide-ranging experience from the technology sector," said Huschke Diekmann, who is in charge of the Rail segment in the HÜBNER Group and has been serving as acting Managing Director for GERSYS in the preceding months. "Together with him we will continue to expand our technological capabilities and extend our range of products and services in the area of rail vehicles."

Heinz Bähr thanked HÜBNER for the trust placed in him and added: "GERSYS stands for outstanding reliability, durability and personal communication with customers – values that I can identify with completely. I am definitely looking forward to strengthening and advancing this very promising company together with my new colleagues."

## The HÜBNER Group

**Mobility. Materials. Photonics.** | united by passion.

As a global system supplier for the mobility industry, for manufacturing and for life sciences and research applications, the HÜBNER Group is the worldwide leader in gangway systems for buses and railway vehicles (**Mobility**), a well-recognized specialist for sophisticated elastomer solutions and products, insulation and composite materials (**Material Solutions**), as well as a supplier for applications in the field of laser, terahertz and high frequency technologies (**Photonics**).
