

Apply now for the 2023 apprenticeship

Start of professional life: HÜBNER welcomes 15 junior employees

Kassel (29 August 2022). Welcome to HÜBNER: 15 junior employees started their careers last week at the company headquarters in Kassel. Whether it was a company presentation, trainee etiquette, the topic of “idea management” or a visit to the KVG: the one-week introductory workshop, which this year for the first time since Corona has been held continuously in attendance, offered the trainees a broad and expanded range of topics.

“We are very pleased that the introductory workshop was finally able to take place in person again this year and that the trainees have the chance to grow together as a cohort from the very beginning,” says Susanne Füllung, HR Development Officer and co-responsible for the HÜBNER trainees. The introductory workshop took place in the Open Space meeting room in Plant 4. After the one-week introductory workshop, all junior employees start today in their respective departments.

More than 50 apprentices at HÜBNER in Kassel

This year, HÜBNER is training a total of nine apprentices in industrial-technical professions, five industrial clerks, and one student in the industrial engineering practical alliance. *“It is important to us to give young people a solid foundation for their later professional life with our training,”* says Marco Knobel, who heads HR Development. In total, more than 50 apprentices are currently working at HÜBNER, at the Kassel site, the company has a total of around 1,100 employees.

Trainees are wanted for 2023

New trainees are already being sought for the 2023 training year. Interested persons can upload their documents on the HÜBNER website. More information: <http://bit.ly/AusbildungBeiHUEBNER>
