

HÜBNER to provide insights into rail technology for special nationwide “action day”

Rail Day in Germany: Experience a railway gangway up close at the Kassel Wilhelmshöhe station

Kassel, Germany (7 September 2023). The HÜBNER Group will provide a special look at the inner life of trains during the upcoming German Rail Day (“Tag der Schiene”). The rail technology manufacturer will be showing a gangway system at the Wilhelmshöhe station in Kassel on Friday, September 15, as part of the nationwide event. From 10 a.m. to 5 p.m., HÜBNER experts will be available on the ramp leading to tracks 1 and 2 to provide information about rail technology and to talk about the HÜBNER Group as an employer.

*“We are looking forward to supporting German Rail Day at our headquarters location in Kassel,” says **Kai Mentel, Managing Director of the HÜBNER Group.** “Rail transport and the rail industry as a whole will be crucial for the overall mobility turnaround. As the HÜBNER Group, we are offering an important part of the solutions for this transformation in mobility offerings.”*

Gangway system for the Spanish rail manufacturer CAF will be shown

Rail travelers and interested people will have the chance to get information about the broad range of HÜBNER mobility products at the company’s Rail Day stand in the station. The HÜBNER product range extends from customized gangway systems for trains as well as buses, to door safety and entry systems for public transport vehicles, to chassis technology, cockpit displays in the cabs of locomotives, plus applications for airport technology.

As an example of one of its main products, HÜBNER will be showing a gangway system produced for the commuter train “Tren Modular Civia”, a vehicle produced by the rail manufacturer Construcciones y Auxiliar de Ferrocarriles (CAF). The Spanish company has been a HÜBNER customer for many years.

Diverse career opportunities at the mobility maker HÜBNER

*“With our broad global view of the mobility sector, we are an exciting employer in this field, with a wide range of interesting professional opportunities,” emphasizes **Timm Kohberger, Head of Gangway Systems in the Mobility Rail division at the company’s Kassel location.** “We are continually looking for new recruits for our workforce of approximately 3,500 employees at locations around the world. Highly practical insights into career opportunities at HÜBNER will be provided by former HÜBNER trainees as well as by representatives from our HR department at the Rail Day event. We are looking forward to stimulating conversations and interesting encounters at Rail Day!”*

Background about “German Rail Day”

German Rail Day (“Tag der Schiene”) is an annual, nationwide event that aims to publicize the diversity, future orientation and climate friendliness of the rail sector. It is organized jointly by the German federal government, the German states, regional authorities and rail industry associations and companies. In this connection, activities and events will take place on a decentralized basis throughout Germany from 15-17 September.

German Rail Day was held for the first time in 2022. It involved more than 300 different events with more than 50,000 persons taking part. More information is available at www.tag-der-schiene.de.

The HÜBNER Group

Mobility. Materials. Photonics. | united by passion.

With its business units Mobility Rail, Mobility Road, Material Solutions and Photonics, the HÜBNER Group is a global system supplier for the mobility sector, for manufacturing, and for life sciences and research applications. HÜBNER is the worldwide leader in gangway systems for rail vehicles and buses as well as a supplier of chassis technology, cockpit display solutions and door sealing and safety profiles. The company is also an internationally recognized supplier of sophisticated solutions involving elastomers, insulation and composite materials. HÜBNER’s business unit for laser technology is developing successfully, featuring applications for cancer diagnostics and spectroscopy, for example.

In 2022, the HÜBNER Group generated sales of approximately €460 million, with approximately 3,500 employees worldwide. In addition to its headquarters in Kassel, Germany, HÜBNER is present with more than 30 locations around the world.
